(b) SETTLEMENT OF SHUT DOWN PROPOSALS FOR THE MONTH OF FEBRUARY 2020, MARCH 2020 AND APRIL 2020. i.r.o GENERATING UNITS, TRANSMISSION LINES AND OTHER EQUIPMENTS.

[All concerned are requested to furnish their shut down proposals for these months to SLDC]

ITEM No: 5. AGENDA NOTE PUT UP BY SLCF MEMBERS FOR DISCUSSION:

5.1. Agenda note put up by BkTPP

A. It has been observed in the past that during backdown time SG was reduced less than 10 MW in first block of ramp down (for both Stage-1 and Stage-2 units) and in the second block, SG was reduced 90 MW for stage 1 and 60 MW for stage-2. This type of SG is impossible to maintain. So it is requested that in the first block of ramp down during backdown, SG value to be reduced to at least 50 % of maximum value of ramp down system for 1st block.

B. Auto refresh system of SLDC website is still not available.

C. WBSEDCL did not agree with the proposal that DC for unit back down should be credited during ramp up process, that is from unit synchronization to achieving full load in the 59th SLCF meeting but representative of WBSEDCL did not mention any specific reason for that. So, we once again demand that the capacity charge during ramp up process (after withdrawal of Unit back down) to be credited from unit synchronization to achieving at least minimum technical load.

D. Carrier signal failure (PLCC) of both channels, of 400kV Bakreswar- Jeerat Line feeder, is coming frequently on/from 13/11/2019 evening. It is persisting for one/two minute and getting reset automatically. After 05-06 (Five) minutes later, the signal failure of both channels is coming again. This is mostly happening in evening time after 17:00 hrs.

Testing Dep't of BktpP has checked the signal strength at PLCC panel at BKTPP end [Receive Signal at co-axial point] repetitively & found (-16 DB) instead of min value of (-14 DB), each time. In this condition, the trouble may please be resolved for successful A/R [During zone#1 & zone#2 faults of both end] as early as possible. If required, end to end test can also be conducted. Since this PLCC system is under 05 (Five) years warranty period & controlling authority is WBSETCL Communication, Abhiskhan, so, you are requested to depute Service Engineer of M/S CGL as early as possible.

You were mailed regarding this on 27/11/2019. Prior to that Mr. Tipuram Das visited the Bakreswar Thermal Power Plant on 11.10.2019 and found same problem persisting. After replacing the processor module (PTPL-4) now link/system made stable. But again the trouble is occurring.

Please resolve the issue as early as possible.

5.2. Agenda note put up by KTPS

- A.** As per minutes of 54th SLCF meeting (Point no 6.2) held on 18.04.2018, the procurement of new APEX meter is to be taken care of by CTD,WBSETCL. But till date the replacement of meter is not initiated.

ITEM No: 6. Date and venue of next SLCF (i.e. 61th) Meeting.
